Deployment of Machine Learning Models

Instructors

Soledad Galli, PhD
Lead Data Scientist

- **Machine Learning Projects:**
  - Credit Risk
  - Fraud Prevention
  - Insurance Claims
- **Knowledge Sharing:**
  - Blogs / Articles
  - Talks in meetups / conferences
  - Online courses

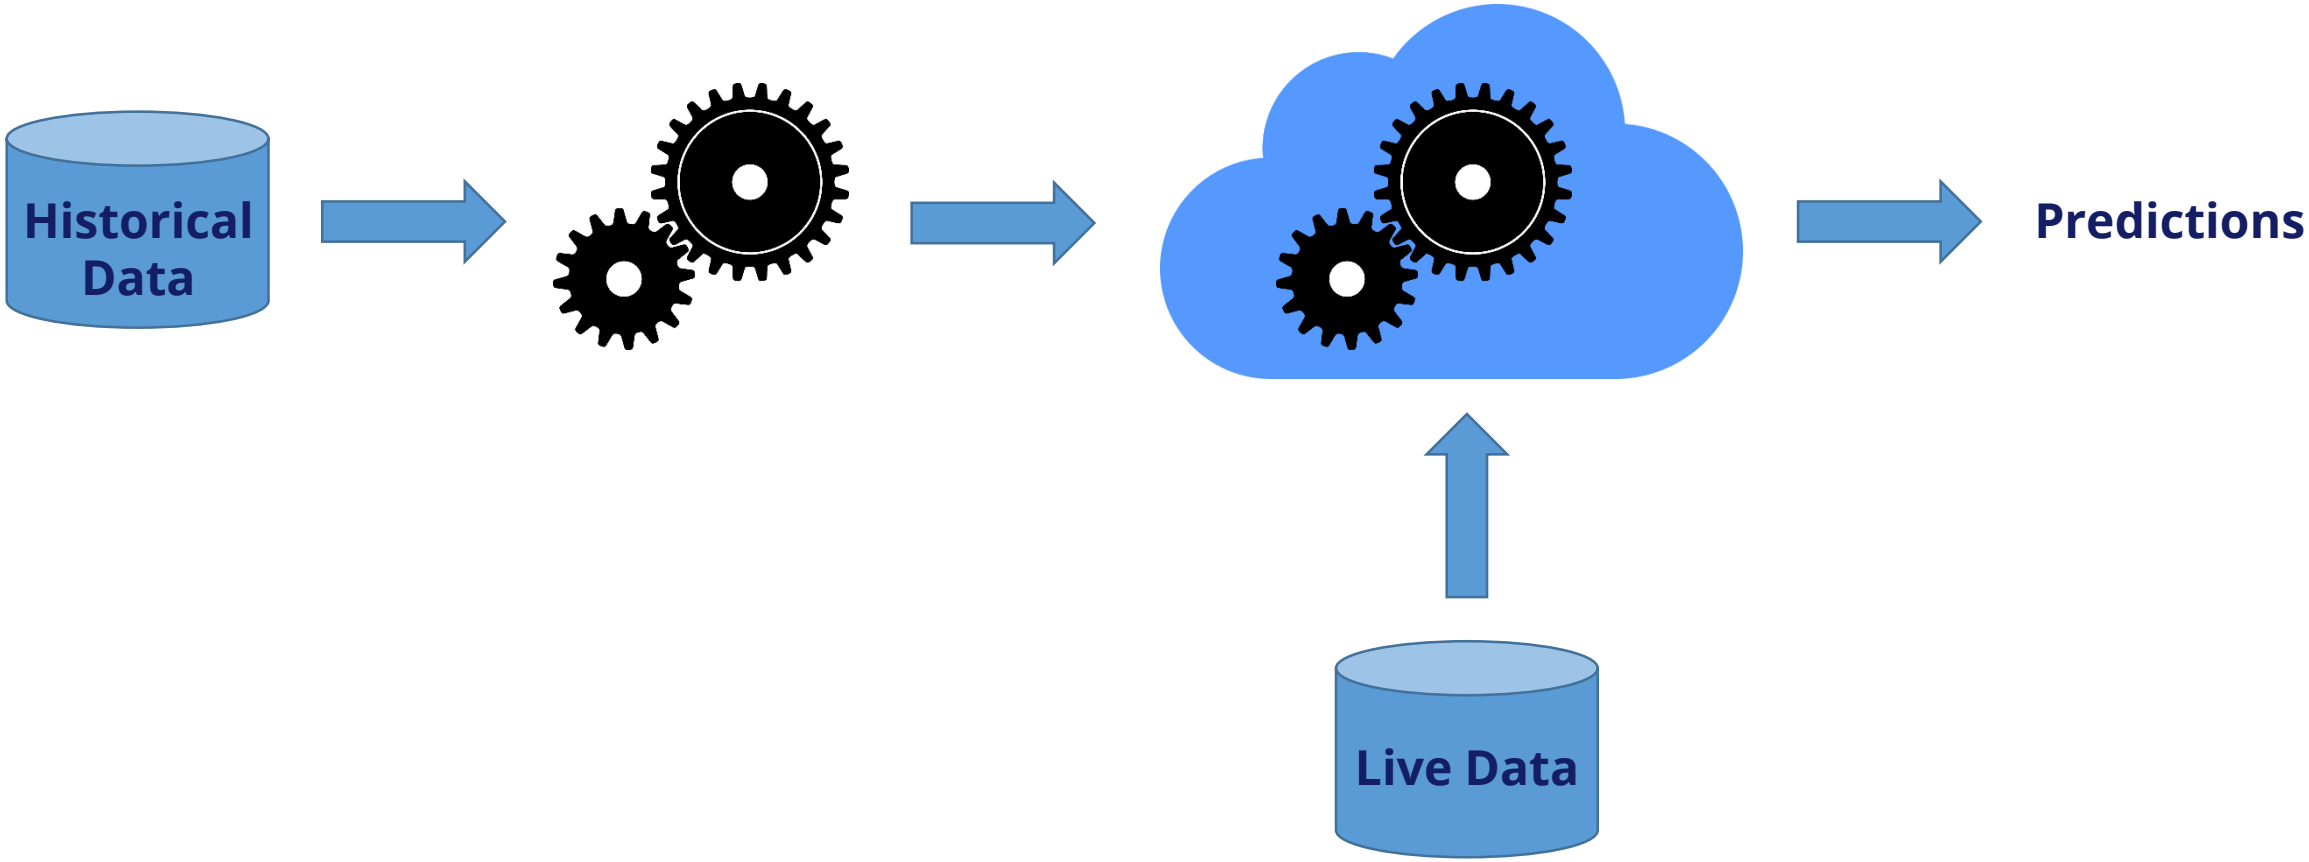
Chris Samiullah
Senior AI Software Engineer

- **Software Engineering:**
  - Python mircoservices for Machine Learning Models
- **Knowledge Sharing:**
  - Blogs / Articles
  - Talks in meetups

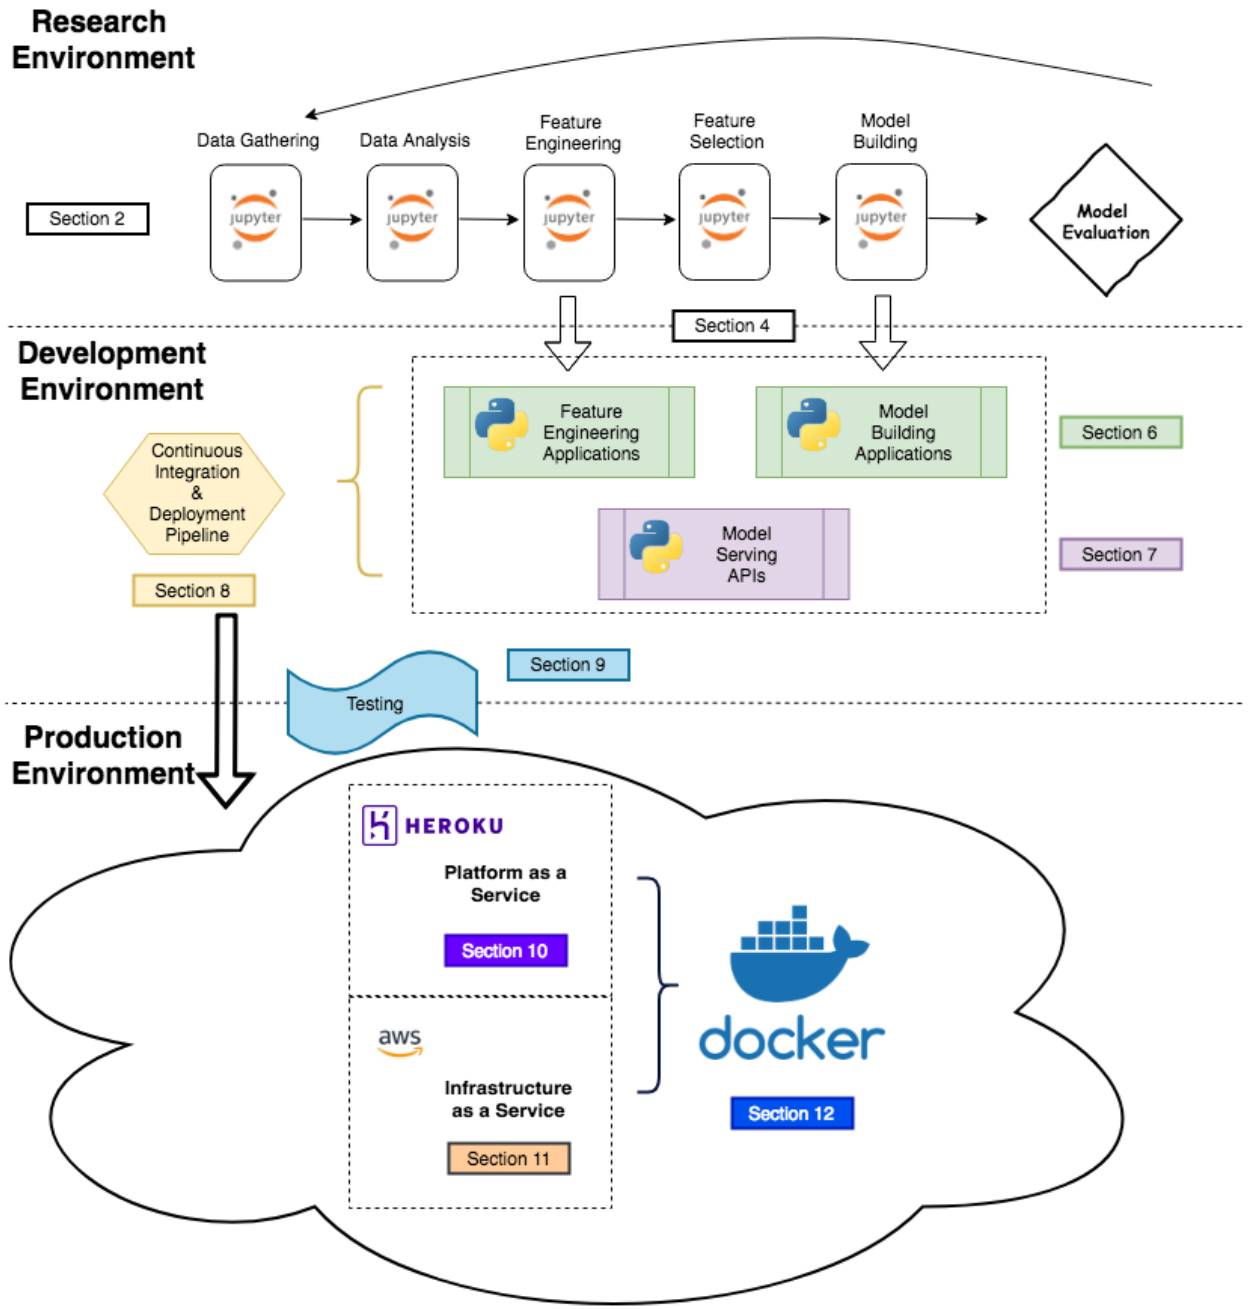
Deployment of Machine Learning Models

What is Model Deployment?

Machine Learning Model Deployment



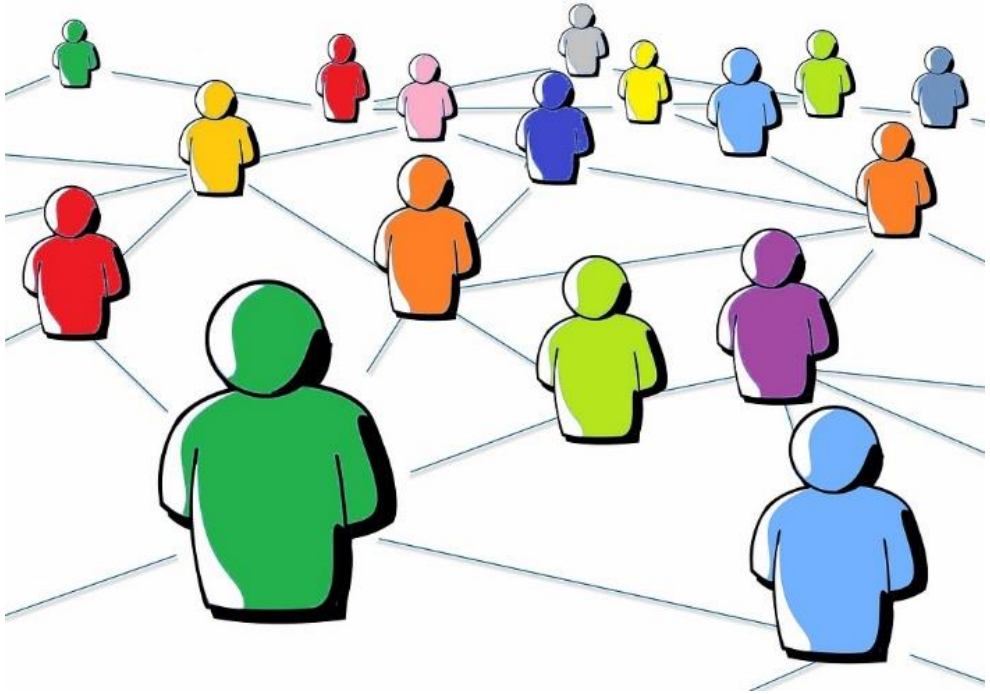
Why take this course?



Research Environment
Data Gathering
Data Analysis
Feature Engineering
Feature Selection
Model Building
Model Evaluation
Section 2
Section 4
Development Environment
Continuous Integration & Deployment Pipeline
Section 8
Feature Engineering Applications
Model Building Applications
Model Serving APIs
Section 6
Section 7
Section 9
Testing
Production Environment
HEROKU
Platform as a Service
Section 10
aws
Infrastructure as a Service
Section 11
docker
Section 12

Who is this course for?

Who is this course for?



- Intermediate and advanced Data Scientists
- Data Engineers
- Software Developers
- Lovers of open source

What will you take home?

Skills and tools you'll take home

- 8+ hr of video content
- Lifetime access to lectures
- Ready-to-use code to:
  - Deploy Machine Learning models
  - Build and Test APIs
  - Continuous integration
  - PaaS and IaaS
  - Docker
