The below resources are on more advanced topics that we will not be covering in the course

If you are interested in reading more about the streaming approach (pattern 3 from the lecture), this is a useful primer on machine learning with Apache Kafka:

<https://www.confluent.io/blog/using-apache-kafka-drive-cutting-edge-machine-learning>

And here are some code examples:

Here is a tutorial on working with Apache Spark for large scale data processing:
